Introduction

AFCPE® supports researchers, educators and counselors by establishing and upholding certification standards for professionals impacting the lives of consumers through financial counseling and planning education. Financial counseling and planning education is the integrative, multidisciplinary field of social science that studies personal finance and helps families from all walks of life make effective financial decisions.

Professionals earn this distinction through education, experience, and by meeting the highest standards of social science and practice of professional financial counselors validated by their performance through examination.

Development and maintenance of the AFC examination is based on a job/practice analysis study process that is designed to ascertain, directly from practicing professionals, the frequency with which knowledge and skills are applied in practice, and the importance or criticality of required knowledge, skills and abilities.

The Certification Council is responsible for essential decisions related to the development, administration, and ongoing maintenance of the certification programs.

Established in 2013 as an independent and autonomous unit of the AFCPE, the Certification Council (“Council”) promotes the highest standards of the financial counseling and planning education profession through the development, implementation, coordination, and evaluation of all aspects of the certification and certification renewal processes.

The Certification Council has developed requirements for eligibility to ensure that the application process is fair and impartial for all applicants. Section 2: Preparing for the AFC Examination

How the Exam is Developed

The AFC exam is designed to assess the knowledge and skills required for certification in financial counseling.

The AFCPE Certification Council develops the AFC examination in partnership with professional testing consultants and panels of qualified subject matter experts to ensure the examination is developed and maintained in a manner consistent with generally accepted practices for the development of certification examinations. Diverse groups of qualified subject matter experts (SMEs) participate in examination development activities including the development of the examination content outline and the examination items. SMEs are selected based on their demonstrated expertise, experience level, geographic representation, and specialty area.

A national job analysis study was conducted in 2014 to describe, in specific terms, the precise nature of the tasks performed by professionals who work in the field of financial counseling, coaching, and education. The study included a national survey of financial counselors, the results of which were analyzed with SMEs to develop the content outline for the AFC exam.

Teams of SMEs, facilitated by professional testing experts, developed the exam items. All exam items are directly linked to the content outline and undergo multiple reviews prior to being placed on the AFC exam. The Certification Council oversees a continual process of item writing, review, and evaluation to ensure that AFC exam content remains up-to-date, accurate, relevant, and aligned with the examination content outline.

A criterion-referenced standard setting process is used to establish the passing point for the exam. This means that each candidate's performance on the exam is measured against a predetermined standard. Candidates are not graded on a curve and do not compete against each other or against a quota.

This passing score for the exam is established using a panel of SMEs who carefully review each exam item to determine the level of knowledge or skill that is expected. The passing score is based on the panel's established difficulty ratings for each exam item. Under the guidance of our testing consultants, the panel develops and recommends the passing point which is reviewed and approved by the Certification Council. The passing point for the exam is established to identify individuals with an acceptable level of knowledge and skill. Receiving a higher than passing score is not an indication of more advanced knowledge or a predictor of better job performance. All individuals who pass the exam, regardless of their score, have demonstrated an acceptable level of knowledge.

Studying for the Exams

The exam covers the topic areas listed below in the Exam Content Outline. Candidates are encouraged to review these areas and the items listed below in preparation for the exam.

The exam consists of 150 multiple-choice format questions designed to test recall skills and the candidate's ability to apply knowledge, interpret data and solve problems. Candidates are given 3 hours to complete the exam.

Section 3: Taking the Exam

What to Expect on Exam Day

To provide a fair and consistent exam experience for all candidates, the exams are delivered using standardized procedures and following strict security protocols. Beginning the Examination

After your identification has been confirmed, you will be directed to a testing carrel. You will be instructed on-screen to enter your identification number. You will take your photograph which will remain on screen throughout your examination session. This photograph will also print on your score report. Prior to attempting the examination, you will be given the opportunity to practice taking an examination on the computer. The time you use for this practice examination is NOT counted as part of your examination time or score.

When you are comfortable with the computer testing process, you may quit the practice session and begin the timed examination.

Following the practice examination, you will begin the timed examination. Before beginning, instructions for taking the examination are provided on-screen.

The computer monitors the time you spend on the examination. The examination will terminate if you exceed the time allowed. You may click on the “Time” box in the lower menu bar on the screen to monitor your time. A digital clock indicates the time remaining for you to complete the examination. The Time feature may be turned off during the examination.

Only one examination question is presented at a time. The question number appears in the lower right of the screen. Choices of answers to the examination question are identified as A, B, C or D. You must indicate your choice by either typing in the letter in the response box in the lower left portion of the computer screen or clicking on the option using the mouse. To change your answer, enter a different option typing in the letter in the response box or by clicking on the option using the mouse. You may change your answer as many times as you wish during the examination time limit.

To move to the next question, click on the forward arrow (>) in the lower right portion of the screen. This action will move you forward through the examination question by question. If you wish to review any question(s), click the backward arrow (<) or use the left arrow key to move backward through the examination.

An examination question may be left unanswered for return later in the examination session. Questions may also be bookmarked for later review by clicking in the blank square to the right of the Time button.

To identify all unanswered and/or bookmarked questions, click on the hand icon. When the examination is completed, the number of examination questions answered is reported. If all questions have not been answered and there is time remaining, you may return to the examination and answer those questions. Be sure to provide an answer for each examination question before exiting the examination. There is no penalty for guessing.

During the examination, comments may be provided for any question by clicking on the button displaying an exclamation point (!) to the left of the Time button. This opens a dialogue box where comments may be entered. Comments will be reviewed, but individual responses will not be provided.

AMP will review the submitted forms and will contact you regarding the decision for accommodations.

Diagnostic breakdowns, calculated for each domain, are intended to identify content areas by showing areas of relative strength and weakness. Information is provided to assist the candidate in identifying areas of study for purposes of subsequent examination.

After completing the examination, you are asked to complete a short evaluation of your examination experience. Then, you are instructed to report to the examination proctor to receive an examination completion report.

Scores Cancelled by the Client or AMP

AMP is responsible for the validity and integrity of the scores they report. On occasion, occurrences, such as computer malfunction or misconduct by a candidate, may cause a score to be suspect. AMP reserves the right to void or withhold examination results if, upon investigation, violation of its regulations is discovered.

Understanding Your Scores

A criterion-referenced standard setting process is used to establish the passing point for each exam. This means that each candidate’s performance on the exam is measured against a predetermined standard. Candidates are not graded on a curve and do not compete against each other or against a quota.

This passing point is established using a panel of subject matter experts who carefully review each exam question to determine the basic level of knowledge or skill that is expected. The passing point for the exam is established to identify individuals with an acceptable level of knowledge and skill. Receiving a higher than passing score is not an indication of more advanced knowledge or a predictor of better job performance. All individuals who pass the exam, regardless of their score, have demonstrated an acceptable level of knowledge.

Re-Examination

Candidates that do not achieve a passing score on the examination must wait a minimum of ninety (90) days to retake the certification examination. Should a candidate be unsuccessful on a second or subsequent certification examination, the candidate must wait a minimum of 180 days between administrations prior to a subsequent reexamination attempt.

To retake the examination, the candidate must repeat all registration processes as outlined in the Candidate Handbook, including the application and retake fee. Candidates may take the examination an unlimited number of times as long as they continue to meet the published eligibility criteria.

Exam Appeals

The Certification Council consistently evaluates the examinations to ensure they accurately measure competency in the required knowledge areas. While taking the exams, candidates have the opportunity to provide comments on any questions. All substantive comments will be reviewed.

Candidates who fail an exam may file an appeal if they believe the exam failure is a result of:

1. Examination scoring/grading errors
2. Inappropriate exam administration procedures that violate AFCPE Certification Council policy
3. Testing conditions severe enough to cause a significant disruption of the examination process (including environmental conditions or disruptions caused by other candidates)

Any serious incident occurring during exam administration should also be reported to the on-site proctor immediately.

Complaints or appeals may be submitted in writing prior to the exam and up until thirty (30) days after exam administration. Complaints or appeals will not be considered after the thirty (30) days have expired. Written appeals must be submitted via email, mail or fax with supporting documentation or evidence to the Certification Program Director.

The burden of proof for examination appeals is borne by the applicant. The Certification Program Director will review the appeal request and obtain additional information from the test site proctor or testing agency as needed (irregularity report, etc.). The Council will review the appeal within thirty (30) days and will make a determination within sixty (60) days. The decision of the Certification Council is final.

Due to the thorough review and analysis of each question during the examination construction procedures, there are no appeal procedures to challenge individual exam questions or answers. Because of the secure nature of these examinations, AFCPE will not disclose examination questions prior to, or after, the administration. Candidates responses to particular test questions (correct or not correct) will not be disclosed.

Section 5: Complaints and Disciplinary Actions

In order to maintain and enhance the credibility of AFCPE's certification programs, the Certification Council has adopted the following procedures to allow individuals to bring complaints concerning the conduct of AFCPE certificants' to the AFCPE Certification Council.

In the event a certificant violates the AFCPE Code of Ethics, certification program rules, requirements, and/or policies, the Certification Council may reprimand or suspend the individual or may revoke certification.

The grounds for sanctions under these procedures may include, but are not necessarily limited to:

- Violation of established AFCPE Code of Ethics, rules, requirements, and/or policies.
- Conviction of a felony or other crime of moral turpitude under federal or state law in a matter related to the practice of, or qualifications for, financial counseling.
- Gross negligence, willful misconduct, or other unethical conduct in the performance of services for which the individual has achieved AFCPE certification.
- Fraud, falsification, or misrepresentation in an initial application or renewal application for certification.
- Falsification of any material information requested by the AFCPE or Certification Council.
- Misrepresentation of AFCPE certification status.
- Cheating on any certification examination.

Actions taken under this policy do not constitute enforcement of the law, although referral to appropriate federal, state, or local government agencies may be made about the conduct of the certificant in appropriate situations. Individuals initially bringing complaints are not entitled to any relief or damages by virtue of this process, although they will receive notice of the actions taken.

Complaints

Complaints may be submitted by any individual or entity. Complaints should be reported to the Certification Council in writing and should include the name of the person submitting the complaint, the name of the person the complaint is regarding along with other relevant identifying information, a detailed description of factual allegations supporting the charges, and any relevant supporting documentation. Information submitted during the complaint and investigation process is considered confidential and will be handled in accordance with the Council's Confidentiality policy. Inquiries or submissions other than complaints may be reviewed and handled by the Council Chair or Certification Program Director at its discretion.

Upon receipt and preliminary review of a complaint involving the certification program, the Certification Program Director in consultation with the Council Chair may conclude, in their sole discretion, that the submission:

- contains unreliable or insufficient information, or
- is patently frivolous or inconsequential.

If the Program Director and Council Chair do not reach consensus the preliminary review may be referred to the Certification Council.

In such cases, the Certification Program Director and Council Chair may determine that the submission does not constitute a valid and actionable complaint that would justify bringing it before the Council for investigation and a determination of whether there has been a violation of substantive requirements of the certification process. If so, the submission is disposed of by notice from the Certification Program Director and Council to its submitter.

Preliminary review will be conducted within 15 business days of receipt of the complaint.

If a submission is deemed by the Certification Program Director and Council to be a valid and actionable complaint, the Council will see that written notice is provided to the certificant whose conduct has been called into question. The certificant whose conduct is at issue will also be given the opportunity to respond to the complaint. The Council will ensure that the individual submitting the complaint receives notice that the complaint is being reviewed by the Council.

The Executive Director will be notified of all complaints and will be kept informed of the progress and outcome of all investigations.

Complaint Review

For each complaint the Council concludes is a valid and actionable complaint, the Council authorizes an investigation into its specific facts or circumstances to whatever extent is necessary in order to clarify, expand, or corroborate the information provided by the submitter.

The Council appoints a Review Committee of three or more individuals, who may or may not be members of the Council to investigate and make an appropriate determination with respect to each such valid and actionable complaint; the Review Committee may review one or more such complaints as determined by the Council. The Review Committee initially determines whether it is appropriate to review the complaint under these Procedures or whether the matter should be referred to another entity engaged in the administration of law. The timeline for responses and for providing any additional information will be established by the Review Committee. The Review Committee may be assisted in the conduct of its investigation by other members of the Council or by Board and/or AFCPE staff or legal counsel. The Council exercises general supervision over all investigations.

Both the individual submitting the complaint and the certificant who is the subject of the investigation (or his or her employer) may be contacted for additional information with respect to the complaint. The

Review Committee, or the Council on its behalf, may at its discretion contact such other individuals who may have knowledge of the facts and circumstances surrounding the complaint.

All investigations and deliberations of the Review Committee and the Council are conducted in confidence, with all written communications sealed and marked "Personal and Confidential," and they are conducted objectively, without any indication of prejudice. An investigation may be directed toward any aspect of a complaint which is relevant or potentially relevant. Formal hearings are not held and the parties are not expected to be represented by legal counsel, although the Review Committee and Council may consult their own legal counsel.

Members of the Review Committee will be reimbursed for reasonable expenses incurred in connection with the activities of the Committee.

Determination of Violation

Upon completion of an investigation, the Review Committee recommends whether the Council should make a determination that there has been a violation of Council policies and rules. When the Review Committee recommends that the Council find a violation, the Review Committee also recommends imposition of an appropriate sanction. If the Review Committee so recommends, a proposed determination with a proposed sanction is prepared under the supervision of the chair and is presented by a representative of the Review Committee to the Council along with the record of the Review Committee's investigation.

If the Review Committee recommends against a determination that a violation has occurred, the complaint is dismissed with notice to the certificant, the certificant's employer (if involved in the investigation), and the individual or entity who submitted the complaint.

The Council reviews the recommendation of the Review Committee based upon the record of the investigation. The Council may accept, reject, or modify the Review Committee's recommendation, either with respect to the determination of a violation or the recommended sanction to be imposed. If the Council makes a determination that a violation has occurred, this determination and the imposition of a sanction are promulgated by written notice to the certificant, and to the individual submitting the complaint, if the submitter agrees in advance and in writing to maintain in confidence whatever portion of the information is not made public by the Council.

In certain circumstances, the Council may consider a recommendation from the Review Committee that the certificant who has violated the certification program policies or rules should be offered an opportunity to submit a written assurance that the conduct in question has been terminated and will not recur. The decision of the Review Committee to make such a recommendation and of the Council to accept it are within their respective discretionary powers. If such an offer is extended, the certificant at issue must submit the required written assurance within thirty (30) days of receipt of the offer, and the assurance must be submitted in terms that are acceptable to the Council. If the Council accepts the assurance, notice is given to the certificant's employer and to the submitter of the complaint, if the submitter agrees in advance and in writing to maintain the information in confidence.

Sanctions

Any of the following sanctions may be imposed by the Council upon a certificant whom the Council has determined to have violated the policies and rules of its certification program(s), although the sanction applied must reasonably relate to the nature and severity of the violation, focusing on reformation of the conduct of the member and deterrence of similar conduct by others:

- written reprimand to the certificant;
- completion of additional continuing education activities;
- suspension of the certificant for a designated period; or
- termination of the certificant's credential.

Verification of this information will be made available only after any appeal has either been considered or the appeal period has passed.

Reprimand in the form of a written notice from the Council normally is sent to a certificant who has received his or her first substantiated complaint. Suspension normally is imposed on a certificant who has received two substantiated complaints. Termination normally is imposed on a certificant who has received two substantiated complaints within a two year period, or three or more substantiated complaints. The Council may at its discretion, however, impose any of the sanctions, if warranted, in specific cases.

Certificants who have been terminated will have their certification revoked and may not be considered for AFCPE certification in the future. If certification is revoked, any and all certificates/diplomas or other materials requested by the Council must be returned promptly to AFCPE.

Appeal

Within thirty (30) days from receipt of notice of a determination by the Council that a certificant violated the certification program policies and/or rules, the affected certificant may submit to the Council in writing a request for an appeal.

Upon receipt of a request for appeal, the Council establishes an appellate body consisting of at least three, but not more than five individuals. This Appeals Committee may review one or more appeals, upon request of the Council. No current members of the Review Committee or the Council may serve on the Appeals Committee; further, no one with any personal involvement or conflict of interest may serve on the Appeals Committee. Members of the Appeals Committee may be reimbursed for reasonable expenses incurred in connection with the activities of the Committee.

The Appeals Committee may only review whether the determination by the Council of a violation of the certification program policies and/or rules was inappropriate because of:

- material errors of fact, or

- failure of the Review Committee or the Council to conform to published criteria, policies, or procedures.

Only facts and conditions up to and including the time of the Council's determination as represented by facts known to the Council are considered during an appeal. The appeal will not include a hearing or any similar trial-type proceeding. Legal counsel is not expected to participate in the appeal process, unless requested by the appellant and approved by the Council and the Appeals Committee. The Council and Appeals Committee may consult legal counsel.

The Appeals Committee conducts and completes the appeal within ninety (90) days after receipt of the request for an appeal. Written appellate submissions and any reply submissions may be made by authorized representatives of the member and of the Council. Submissions are made according to whatever schedule is reasonably established by the Appeals Committee. The decision of the Appeals Committee either affirms or overrules the determination of the Council, but does not address a sanction imposed by the Council. The decision of the Appeals Committee, including a statement of the reasons for the decision, is reported to the Council.

The Appeals Committee decision is binding upon the Council, the certificant who is subject to the termination, and all other persons.

Resignation

If a certificant who is the subject of a complaint voluntarily surrenders his or her certification(s) at any time during the pendency of a complaint under these Procedures, the complaint is dismissed without any further action by the Review Committee, the Council, or an Appeals Committee established after an appeal. The entire record is sealed and the individual may not reapply for certification. However, the Council may authorize to communicate the fact and date of resignation, and the fact and general nature of the complaint which was pending at the time of the resignation, to or at the request of a government entity engaged in the administration of law. Similarly, in the event of such resignation, the certificant's employer and the person or entity who submitted the complaint are notified of the fact and date of resignation and that Council has dismissed the complaint as a result.

Section 6: Maintaining Certification

Maintaining Certification

AFCPE supports the ongoing professional development of its certificants. The mandatory renewal process provides certificants with the opportunity to demonstrate the reinforcement and expansion of their knowledge and skills pertaining to the full spectrum of personal finance and counseling. Renewal also provides encouragement to, and acknowledgement for, participation in ongoing professional development activities and lifelong learning. To support this purpose, the renewal requirements include continuing education and professional activities that enhance ongoing professional development, recognize learning opportunities, promote continuing competence and provide a process for both attaining and recording professional development achievements.

Professional development is a career-long process. Over the course of a career many changes will occur in a field of study or profession requiring an updating of knowledge and skills. These changes include the introduction of new and varied products and services offerings in the financial marketplace as well changes in laws and technical knowledge related to personal finance and counseling. The purpose of requiring certificants to receive continuing education is threefold:

- to enhance the individual professional's capacity to serve his or her constituents,
- to protect the public interest, and
- to uphold the rigor of the certification programs.

To maintain competence and prevent professional obsolescence, the Certification Council requires that each AFC certificant participate periodically in continuing education to refresh existing knowledge and skills, and to acquire knowledge and proficiency pertaining to new advances as well as state of the art information over the full spectrum of personal finance and counseling.

Renewal Period

To maintain use of the AFC credential, certification must be renewed once every two (2) years.

The 2-year time period established for renewal is based on both the scope of issues that face financial counseling professionals and the Council's belief that new practices, research and information are introduced in the field with enough frequency that professional development activities should be conducted routinely so that certificants remain current with best practices and emerging knowledge.

AFC Renewal Requirements

Certificants who have received the AFC credential are required to complete thirty (30) continuing education units (CEUs) during a two-year reporting cycle. CEUs earned during one reporting cycle do not carry over to future reporting periods.

Renewal of an AFC credential requires:

1. Current AFC certification (active status)
2. Acquire and submit 30 continuing education units that support the AFC role
3. Payment of the Annual Certification Renewal Fee
4. Attestation to comply with the AFC Code of Ethics and Standards of Practice

Acceptable Continuing Education

All continuing education must be related to the AFC role. Often, certificants will meet the CEU requirement by attending programs offered or sponsored by other organizations. In order to ensure credit for a program offered by organizations other than AFCPE, the certificant should request pre-approval at least 14 business days prior to registration or attendance. Pre-approval may be requested using the online form available on the AFCPE website. AFCPE staff will review each request and respond with acceptance or denial of CEUs via email. It is the responsibility of the certificant to retain a copy of the request and response for his/her personal files.

The purpose of post certification requirements is to enhance the professional's ability to serve his or her clients. Programs should be of sufficient depth and breadth to increase the skills and knowledge of the professional, and vary in program method and content. Programs specific to a place of employment, operational training programs, or programs within the professional's job description or designed for consumer use, are not eligible for CEUs.

Renewal Application Requirements

AFCPE strictly adheres to the standards of maintenance requirements for certification. It is the responsibility of the certificant to comply with all procedures and deadlines in order to maintain their credential. AFCPE will send email reminders to the email address on file for the certificant; however, it is the certificant's responsibility to be aware of and comply with renewal requirements and deadlines.

AFCs are responsible for maintaining records of their continuing education credits and may be required to substantiate these units during random audits. Certificants are encouraged to maintain an electronic portfolio. However, if requested, documentation may be submitted to the AFCPE electronically or in a hard copy format.

Incomplete Renewal Applications

Renewal applications are considered incomplete if any of the required information is missing and/or illegible, or the appropriate fee is not included.

Candidates will be notified via email that the renewal application is incomplete and what must be done to complete the application. These notices will include a deadline for response.

If the certificant does not respond within thirty (30) days, notification will be sent to inform the certificant that the renewal application is invalid and will not be processed.

If a certificant fails to resolve noted deficiencies of an incomplete application within the timeframe established by AFCPE, all fees will be forfeited.

Annual Fee

For an AFC certificant to ensure that he/she remains in good standing, certification must be renewed every two (2) years and the AFCPE certification fee must be paid annually. The annual fee is due on January 3 of each year, commencing the year after certification is awarded. A grace period is available until January 31. Fees are published on the AFCPE web site.

Renewal Expiration

All applications, associated forms and fee(s) are due according to the schedule below:

- CEU credits must be postmarked no later than December 31 of the reporting cycle
- Annual fees are due by January 3 of each year

If a candidate files an application after the reporting cycle end date, a late application fee may be enforced. It is recommended that candidates keep a copy of the completed application and associated forms.

Certification renewal is the responsibility of each certificant. AFCPE is not responsible for notices that fail to reach certificants.

Renewal Acceptance

AFCPE will issue a renewal notification to the certificant once all renewal requirements have been fulfilled. Renewal applications will not be accepted from individuals whose certification is in a state of suspension or has been revoked.

Failure to Recertify

Renewal is mandatory for all certificants. Failure to recertify by the deadline will result in suspension of the credential (see "Reinstatement" below). Individuals whose certification has expired or been suspended or revoked may not represent him/herself as an AFC certificant and may not use the designation until he/she receives official notice that the renewal requirements have been satisfied or that certification status has been reinstated. The individual's name will be removed from the list of certificants available to the public on AFCPE's website.

Reinstatement

After a period of two years, or one reporting CEU cycle, in which a Certificant fails to maintain the AFC credential, an individual's status is listed as "lapsed" for a maximum period of six months with approved

extension application. A Certificant must pay reinstatement fees, and obtain the required number of continuing education units in order to reinstate the AFC credential within the extension period.

If the certificant does not comply with the reinstatement requirements within the maximum period of six months, the Council will revoke the AFC credential. Subsequent to revocation, an individual who wishes to regain active AFC status must meet the eligibility requirements currently applicable for initial certification and retake the examination.

Audit Process

AFCPE reserves the right to verify information supplied by, or on behalf of, a certificant. If selected for a review, the certificant will be asked to submit documentation substantiating eligibility.

AFCPE randomly audits approximately 5% of certificant renewal applications. An individual selected for review will be required to submit verifiable documentation for each activity listed in the renewal application. **It is recommended that certificants retain all records for at least two (2) years following the cycle end date.**

If credit for any program or activity (i.e. for which CEUs are reported) is denied as a result of the review, the certificant will be given 60 days to report additional hours to eliminate the deficiency. The certificant will remain authorized to use the AFC designation during this 60-day period.

If the deficiency is not cured within the 60-day period, a deficiency notice will be sent. If the necessary hours remain unreported the individual will no longer be certified and will not be authorized to use the AFC designation.

Renewal Appeals

The certification renewal decision will be based solely on materials submitted by, or on behalf of, the certificant.

Appeals regarding adverse renewal eligibility and status decisions must be submitted in writing to the Certification Program Director within thirty (30) calendar days after the adverse decision or notification. The candidate must submit the appeal in writing (email is acceptable), and explain in detail: 1) The nature of the request and the specific facts and circumstances supporting the request, and 2) all reasons why the action or decision should be changed or modified. The candidate must also provide accurate copies of all supporting documents. The Certification Program Director will review the appeal within fifteen (15) days.

If the issue cannot be resolved by the Certification Program Director he/she will refer the appeal to the Certification Council. The appeal will also be referred to the Council if the candidate does not accept a determination by the Certification Program Director. The Council will review the appeal within thirty (30) days and will make a determination within sixty (60) days. The decision of the Certification Council is final.
